

**@ease Personalized X-ray Monitoring Badges** use state-of-the-art technology from a NVLAP-accredited laboratory. One super-low price includes everything: free control badges, automatically sent reports, 24/7 access to your online reports, with no hidden fees for set-up, processing, or personnel changes. Comprehensive reports provide readings at three tissue levels, updated for the current wear period, plus your YTD and lifetime history. Assurance of a safe workplace, and savings of about 20% over the leading brand.

#### **@ease X-ray Monitoring Badge Service**

*How it works:* Inside each attractive badge is a dosimeter that accumulates while you wear it. You'll automatically receive a new set of badges, along with a pre-printed envelope used to send the badges back for processing. Our service includes processing and analysis of dosimeters, archival storage of exposure results, personalized dosimetry reports with data management, customer service and technical support programs.

#### **@ease Advantages**

- 24/7 Access to your secure online results
- No account maintenance or set-up fees
- Control badge provided at no charge
- Automatic badge replacement for one year
- A printed reply envelope to return badges
- Automated reports sent with exposure history automatically updated
- Automatic renewal to keep you in compliance is optional
- Customer care – “real people” will take your call
- Savings average about 20% over the leading brand
